ESG is a shared **responsibility**,
actionable through small, daily efforts by
every individual within **our organization**.

ESG

A vision that fosters shared value.

ESG

A shared vision that creates collective value for everyone in the organization

Environmental Responsibility

WP Energy is dedicated to sustainable business practices, demonstrating genuine care for the environment. We champion clean energy utilization and efficient resource management, mitigating climate impact to safeguard our planet for generations to come.

Care for Employees, Community, and Equal Opportunity

WP Energy prioritizes social responsibility across all dimensions. This encompasses ensuring the safety and well-being of our employees and communities, and extending to all stakeholders, while supporting initiatives that strengthen society, driving concrete impacts.

Transparency, Accountability, Good Governance

WP Energy operates steadfastly under principles of good governance, ensuring transparency and accountability. Our decisions are guided by ethics and fairness. A robust risk management system further instills trust and long-term sustainability for our shareholders and all sectors.

[Our Core Businesses](#)

[LPG Business](#)

[Energy & Services Solutions](#)

[Social and Environmental Responsibility](#)

[PRESTIGIOUS AWARD](#)

Our Core Businesses

LPG Business

WP Energy leads the liquefied petroleum gas (LPG) distribution sector under the "Worldgas" brand. Our comprehensive services span transport, households, restaurants, and industrial applications. We are committed to developing innovative, integrated services from upstream to downstream, adhering to international safety standards. Our operations are built on responsibility, trust, and quality, delivering reliable energy to all societal sectors and driving Thailand's economy towards sustainable growth.

Energy & Service Solutions

WP Energy develops comprehensive energy solutions designed for the demands of modern businesses and organizations. This includes the installation of energy systems, clean energy management, solar rooftop solutions, and energy design services that enhance efficiency, reduce costs, and minimize environmental impact. Our professional engineering team provides end-to-end service, from design and installation to after-sales support, creating sustainable, cost-effective, and highly efficient energy experiences for our clients.

Other Businesses

WP Energy strategically expands beyond its core energy operations, cultivating new business opportunities that bolster long-term organizational strength. These ventures include the distribution of energy-related equipment and products, service station management, and investments in alternative energy technologies. Our goal is to forge a comprehensive and sustainable energy ecosystem, responding to energy transition trends and ensuring stable growth in the future energy landscape.

LPG Business

With over 47 years of experience, WP Energy, a leader in the liquefied petroleum gas trade under the Worldgas brand, has evolved into a comprehensive leader in Thailand's clean energy business.

LPG Business

As a leading integrated energy group in Thailand, WP Energy's primary business is the trade of liquefied petroleum gas (LPG) under the "Worldgas" brand. We provide comprehensive services, from sourcing to distribution, serving customers nationwide through a network of storage and distribution terminals linked to numerous filling plants across all regions. With over 7,000,000 gas cylinders distributed nationally, we cater to diverse customer segments, including households, the automotive industry, and commercial and industrial enterprises.

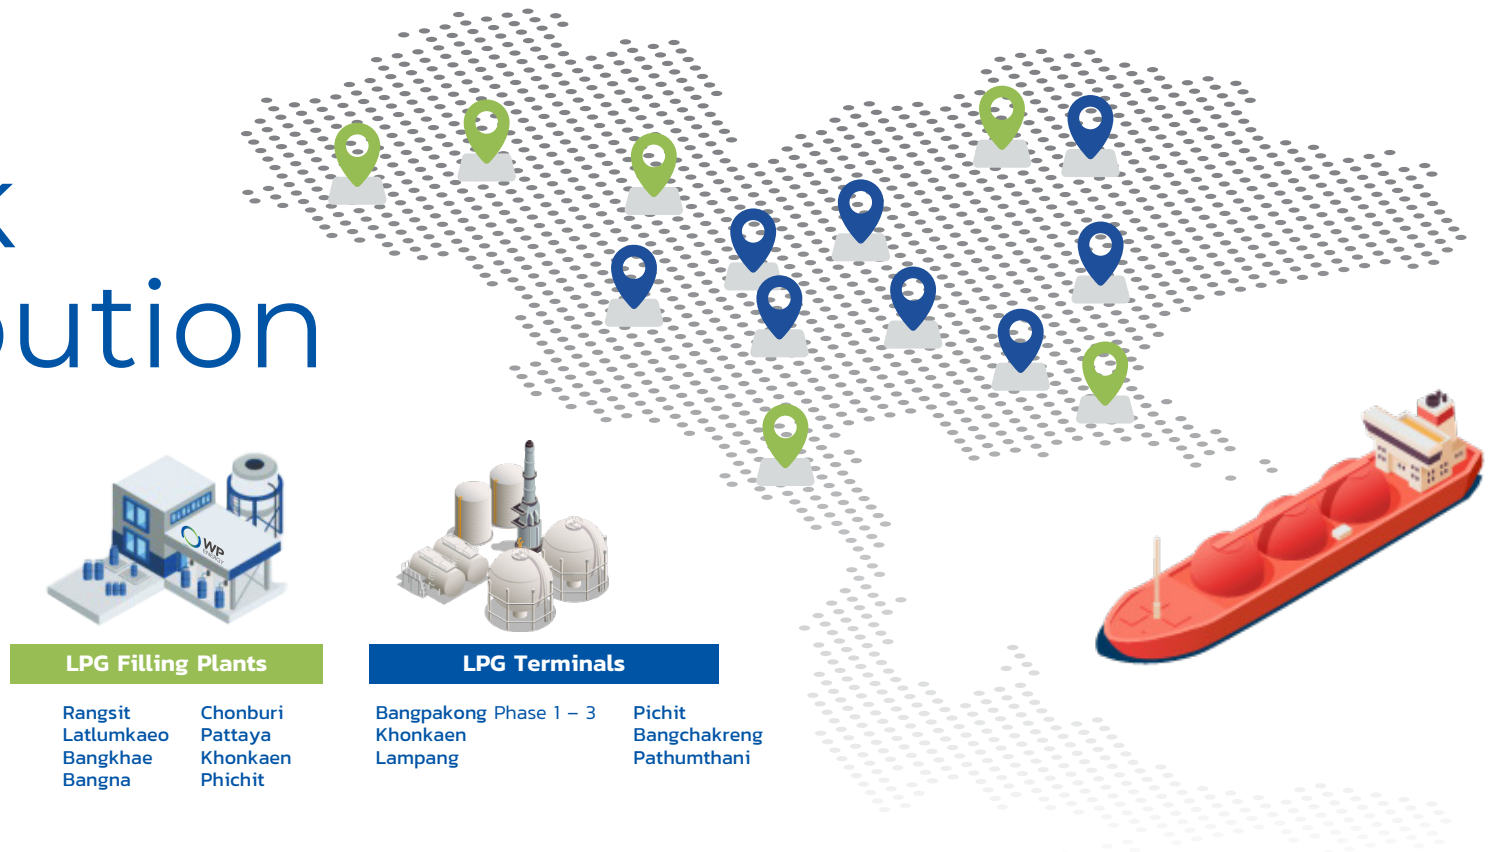

Energy & Services Solutions

WP Energy is dedicated to developing and delivering comprehensive energy solutions, with expert engineering teams overseeing every phase, from the design and installation of LPG gas pipeline systems to ongoing inspection, maintenance, and emergency support services, all executed with the highest safety standards to ensure customer confidence and operational continuity.

Beyond LPG services, WP Energy also extends its capabilities into alternative energy, enabling customers to access clean and cost-effective power sources. The company invests in and installs solar cell systems and rooftop solar power generation systems. Currently, we serve industrial and commercial clients such as hospitals, hotels, resorts, and the agricultural sector, helping them reduce energy costs and foster long-term sustainability.

Products & Services

Products

WP Energy is a leader in delivering integrated service innovations, genuinely prioritizing consumers, and relentlessly innovating to develop products and services that continually better meet customer needs. Our aim is to empower all business networks to advance ceaselessly with exceptional products and services.

Gas Cylinders

Every worldgas cylinder is certified with the "Quality (TIS) Standard No. 27-2543" by the Ministry of Industry, guaranteeing the highest safety standards.

Canned Gas

We distribute premium quality canned gas under the "Worldgas" brand.

Forklift LPG

WP Energy provides comprehensive solutions, distributing LPG cylinders specifically designed for forklifts. These are compliant with Ministry of Industry safety standards and widely trusted by numerous leading companies.

Bulk LPG

WP Energy sources high-quality gas from leading national refineries and separation plants, ensuring delivery of quality gas to customers across our entire network via our robust transport infrastructure.

Services

WP Energy empowers every business network to advance relentlessly with exceptional products and services.

Customer Relations & Emergency Notification Center

WP Energy is equipped with sophisticated management systems to ensure swift and accurate responses to order requests, operating systematically 24 hours a day.

Call Center: 02-272-3333

24 hours Emergency Call 02-272-3334

After-Sales Service Center

We provide comprehensive after-sales service and technical support to customers through expert engineers. Our coverage spans all processes, from the design and installation of LPG pipeline systems to ongoing service and maintenance, including emergency assistance, all adhering to the highest safety standards.

Call Center: 02-272-3333

Safety Training Center

Certified by the Department of Energy Business, our center offers training courses to external individuals, customers, and interested parties. Our curriculum covers the roles of LPG filling plant employees, basic firefighting and evacuation, firefighting drills, risk assessment, and comprehensive safety awareness.

Call Center: 02-272-3333

Data iCare Network Service

This system is engineered to maximize customer satisfaction by seamlessly integrating various operational steps—from ordering, storage, and transport to distribution—into a connected network. This enhances flexibility in managing the entire supply chain.

Customer Sectors & Distribution Channels

WP Energy, a leading integrated energy company in Thailand, specializes in LPG distribution under the "Worldgas" trademark. Our gas distribution network extends to all sectors, including household, automotive, and industrial, both domestically and internationally.

Customer Sectors & Distribution Channels

Household Cooking Gas Distribution Channel

WP Energy distributes cooking gas through a network of gas filling plants and retail stores to agents nationwide. WP Energy commands the second-largest market share in the household cooking gas sector in Thailand.

Our strength lies in our extensive network of filling plants strategically located nationwide, ensuring we deliver expert clean energy solutions comprehensively. With years of experience, we offer tailored consultation, including legal safety inspections and safety training to promote correct and safe gas usage.

We operate with over 6 million Worldgas brand cylinders distributed across all regions, through more than 400 gas retail stores nationwide. Our diverse range of cylinder sizes (4, 8, 13.5, 15, and 48 kilograms) meets various customer needs. Every Worldgas cylinder is certified with the "Quality (TIS) Standard No. 27-2543" by the Ministry of Industry, guaranteeing the highest safety standards. Our "Worldgas" branded cylinders are widely recognized and highly popular among consumers.

Customer Sectors & Distribution Channels

Industrial and Commercial Sector

WP Energy has earned the trust of over 150 leading industrial clients. LPG is favored for its higher heat output compared to oil, clean and complete combustion, high safety profile, and minimal environmental pollution. Our clients include manufacturers of sanitary ware, ceramics, and industries requiring stable high-temperature energy for production.

In the commercial sector, over 1,000 leading organizations currently rely on WP Energy's services. This diverse group includes small factories, hotels, hospitals, restaurants, department stores, and community malls.

Our dedicated sales and expert engineering teams provide consultation on designing appropriate gas station systems, including both 1-valve and 2-valve configurations. We also offer comprehensive safety advice on equipment and gas distribution systems, ensuring cost-effective and maximally safe usage for our clients. This is complemented by after-sales service from our highly skilled and experienced engineers, maintaining the highest safety standards.

Additionally, WP Energy provides comprehensive services, including the distribution of liquefied petroleum gas (LPG) cylinders specifically designed for forklifts. These are certified safe by the Ministry of Industry and trusted by numerous leading companies.

Customer Sectors & Distribution Channels

International Distribution Channel

WP Energy is expanding its gas exports to capitalize on economic growth in the ASEAN region through trading. We commenced operations in Vietnam and continuously seek opportunities for further expansion into other ASEAN countries.

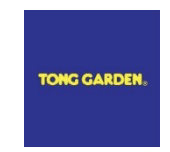

Auto Gas Sector

WP Energy distributes high-quality LPG through a nationwide partner network, ensuring efficient and continuous energy access for the AG sector, while maintaining a reliable and consistent gas supply. The World-gas brand is available at over 300 locations nationwide, covering all areas and meeting diverse consumer needs.

WP SERVICE SOLUTION

WP Energy is dedicated to offering comprehensive solar energy solutions, spanning expert consultation, design, and international standard installations. Our specialized professional team provides a premium Solar Installation Service, delivering clean energy designed for your business.

We carefully select high-quality solar panels and equipment to ensure maximum long-term efficiency and value for our customers' investments, always emphasizing safety, reliability, and the promotion of sustainable clean energy use.

Whether your business is small, medium, or large, WP Energy is ready to implement a solar rooftop system that optimizes energy consumption, reduces electricity costs, and enhances your organization's image as environmentally responsible.

For day-to-day assurance, beyond meticulous installation, WP Energy prioritizes continuous maintenance of solar energy systems. This ensures consistent, stable, and cost-effective performance for our customers.

Our expert team is always ready to inspect, maintain, and swiftly resolve issues, while also providing preventive advice to extend system lifespan and minimize energy disruptions.

We offer a comprehensive maintenance system, from cleaning and performance checks to preventive maintenance, giving customers peace of mind that clean solar energy will consistently reduce costs and support their organization's sustainability every day.

WP MAINTENANCE SERVICE

Comprehensive energy system maintenance.
Confidence at every step, empowering
your business for sustainable growth.

At WP Energy, we are more than an energy provider; we are integrated energy consultants, committed to supporting your business at every stage—from design and installation to continuous energy system maintenance.

Our team of engineers and experts deeply understands each business's context, ready to recommend the most cost-effective, safe, and appropriate energy solutions. This ensures that every design and installation adheres to legal and safety standards, aligning perfectly with your organization's growth objectives.

Our services include:

- Consult & Design: Strategic planning for gas, solar, and alternative energy systems.
- Installation & Operation: Professional installation and commissioning by certified technicians.
- Safety Audit & Maintenance: In-depth safety audit and system maintenance, including Vaporizer PM.

Whether you're embarking on a new venture or expanding your business, we stand as your "energy partner," helping you manage energy efficiently, reduce costs, and achieve sustained long-term growth.

LOGISTIC SERVICE

Efficiency-enhancing solutions for delivery business. WP Energy boasts a modern, standard-compliant land transport system for liquefied petroleum gas, operated by our affiliated companies: Eagle Intertrans Co., Ltd., a certified transporter under Section 12 of the Fuel Oil Trading Act B.E. 2543. We provide delivery services with advanced, safe transport systems, complete with GPS tracking for the utmost assurance of all our target customers.

Furthermore, our services extend to providing logistics for Modern Trade groups.

WE PROMISE

WE PROMISE is our commitment to champion long-term sustainability through both policy and the diligent implementation of practices that foster sustainability across all operational processes. Our ambition is to generate positive impacts for communities, society, the environment, and the broader Thai economy, reflecting our dedication in every dimension:

1.

Sustainably enhancing the quality of life for Thai citizens through impactful policies and community-driven activities.

2.

Promoting diversity and social inclusion by embracing all perspectives and fostering mutual respect.

3.

Committed to the sustainable development of Thai youth potential through educational support, laying a robust foundation for the nation.

4.

Striving for sustainability, delivering clean energy that benefits both the planet and its people, alongside the responsible stewardship of natural resources and the environment.

These principles are deeply embedded in WP Energy's 5 DNA attributes:

1. **Modern:** Embracing innovation to drive progress.
2. **Friendly:** Operating with sincerity and prioritizing community well-being.
3. **Approachable:** Engaged, responsive, and ready to adapt.
4. **Flexible:** Agile in navigating change.
5. **Relevant:** Understanding the world, connecting with people, and prepared for the future.

Awards & Certifications

WP Energy is committed to the continuous improvement of its management systems across quality, environment, occupational health, and safety. This dedication has earned us numerous international standard certifications.

Quality Management System
(ISO 9001:2015)

Environmental Management System
(ISO 14001:2015)

Occupational Health & Safety Management System
(ISO 45001:2018)

Occupational Health & Safety
Management System (TIS 45001:2561)

Additionally, prioritizing the welfare and safety of our employees and surrounding communities, we consistently prepare for all potential emergencies. This includes annual fire prevention drills at our gas terminals and filling plants to ensure all personnel and relevant parties are well-prepared and proficient.

Awards of Achievement

2018

"Most Sustainable LPG Supplying Company - 2018" from International Finance

International Finance magazine (UK) is a globally respected source for data and analytical insights into business development. The IFM Awards are renowned for their meticulous selection and evaluation process, conducted by a distinguished panel of experts, ensuring the global trust and credibility of these accolades.

"Green Industry Award" (Project to Promote and Develop Enterprises towards Green Industry)

Presented by the Ministry of Industry, this award recognizes organizations that integrate environmental care into every stage of their production processes and exhibit social responsibility through continuous monitoring and evaluation. WP Energy received this award for developing a 'Green System' and demonstrating environmental stewardship.

2019

"Best LPG Distributors 2019" from International Finance

WP Energy received this consecutive award from International Finance magazine in the utility and energy industry. This "Best LPG Distributors" recognition honors business leaders for efficient liquefied petroleum gas (LPG) energy management, strong partner support, and comprehensive upstream-to-downstream after-sales service.

"Asia's Most Influential Companies 2019" from ACES Awards

A global recognition from the Asia Corporate Excellence & Sustainability Awards 2019 (ACES Awards 2019) for organizations demonstrating stable and sustainable growth, strong performance, comprehensive care for human resources and the environment, and consistent contributions to society.

2020

“Most Innovative CSR Initiative 2020”
from International Finance Awards (IFM Awards)

For the third consecutive year, WP Energy received an IFM Award, this time for “Most Innovative CSR Initiative.” This award celebrates organizations that integrate business with balanced social responsibility, creating benefits for people and the environment for all-round sustainability, driving positive change for Thailand’s economy, society, environment, quality of life, and professional development.

2021

“Best Renewable Energy (LPG) Efficient Provider 2020”
from Global Banking and Finance Awards

An international award from Global Banking and Finance Awards 2020 for the “Best Renewable Energy Provider.” This prestigious recognition from Global Banking & Finance, a leading UK finance magazine, reaffirms our excellent service standards, modernity, and commitment to delivering superior service based on the highest safety quality, strictly adhering to all laws, regulations, and standards. It solidifies our goal of being an integrated energy leader, embracing challenges and pursuing opportunities for sustainable business development and expansion, regionally and globally.

“Most Innovative Customer Service Initiative”
from International Finance Awards (IFM Awards)

WP Energy was lauded for its exceptional use of innovation, information technology, and data analytics to enhance business operations and customer service efficiency. This marks our fourth consecutive year of recognition from IFM Awards, proving our continuous dedication to efficient cost management, generating satisfactory profits for investors, and leveraging customer data to analyze, consult, and design comprehensive service solutions for all customer groups.

“Most Innovative LPG Management Company”
from International Finance Awards (IFM Awards)

Beyond recognition for our comprehensive and customer-centric service solutions, WP Energy was also honored for our commitment to embracing new innovations and technologies. This award acknowledges our efforts in developing high-quality, reliable, and safe products, along with providing integrated services, evaluated based on our operational achievements and past successes.

2022

Energy Company of the Year 2022 from Global Brands Banking & Finance Awards

This award celebrates organizations demonstrating leadership in the energy industry, particularly through efficient management, consistent partner support, and comprehensive after-sales service across all sectors, affirming WP Energy's strength as a national energy company.

Best Customer-Centric LPG Distributor 2022 from The Global Economics Awards

Honoring WP Energy as a customer-centric LPG distributor, this award highlights our superior service quality, product designs tailored to user behavior, integrated solutions empowering partners at all levels, and continuous drive for industry sustainability.

Community Initiative 2022 from Asia Corporate Excellence & Sustainability Awards (ACES Awards)

This award highlights WP Energy's role as an organization committed to 'growth with society,' achieving balanced economic, social, and environmental development through transparent disclosure of sustainability data and efforts in promoting Sustainable Development Goals (SDGs) across all organizational dimensions.

2023

Emerging Women CEO of the Year (Utility & Energy) 2023 from Global Business Review Magazine – Awarded to Chomkamol Poompanmoung, CEO of WP Energy

A prestigious honor recognizing a distinguished young female executive in the energy industry. The award considers strategic vision, systematic organizational management capabilities, and demonstrated potential for sustainable organizational growth amidst the rapid and complex changes of the business world.

Best Place to Work (LPG) 2023 from Global Business Review Magazine – Awarded to Chomkamol Poompanmoung, CEO of WP Energy

This award reflects WP Energy's commitment to creating a high-quality workplace, encompassing environmental aspects, employee care, and a corporate culture that fosters sustainable growth, all while adapting to future changes in the energy industry.

Most Desirable Workplace Environment 2023 from Gazet International Annual Awards

This award celebrates organizations that cultivate a working environment genuinely conducive to employee happiness and well-being. WP Energy was recognized for prioritizing its personnel in all aspects, fostering work-life balance, and continuously promoting overall well-being.

Leading Supplier of Liquefied Petroleum Gas (LPG) 2023 from International Business Magazine Awards

An award for a leading organization excelling in the efficient distribution of liquefied petroleum gas (LPG). This encompasses every process, from production to product delivery, alongside market expansion and product development tailored to meet customer needs across all sectors.

Most Socially Responsible Energy Company 2023 from World Business Outlook Awards

This award highlights WP Energy's role in driving business with a strong commitment to social responsibility. It specifically recognizes our transparent disclosure of sustainability data and our initiatives that generate positive economic, social, and environmental impacts, aligning with the UN's SDGs.

2024

Energy Company of the Year Thailand 2024 from International Business Magazine Awards

A prestigious award that reaffirms WP Energy's leadership in Thailand's integrated energy business, received for the 7th consecutive year. It reflects our capacity for efficient operations, enhanced competitiveness, and the continuous development of our workforce to sustainably adapt to all-encompassing changes.

Best CEO in the LPG Industry – Thailand 2024 from Global Brands Magazine Awards

This award acknowledges the leadership of WP Energy's top executive in driving the energy business, highlighting her crucial role in steering the organization's growth amidst the rapid challenges of a changing business world, emphasizing operations based on good governance, responsibility to all stakeholders, and creating sustainable shared value.

CGR 4 Stars, "Very Good" level, from the Thai Institute of Directors (IOD)

WP Energy achieved a "Very Good" rating in the Corporate Governance Report of Thai Listed Companies for 2024 (CGR) by the Stock Exchange of Thailand. This signifies our commitment to enhancing corporate governance, coupled with transparent and responsible business operations, positioning us for continuous long-term growth.

ESG DNA Certificate

WP Energy received a certificate from the ESG DNA project, recognizing our efforts in promoting sustainability knowledge among employees. This includes providing ESG training courses that can be practically applied in each department's work processes, thereby embedding sustainability as a core DNA of the organization for future sustainable growth.

2025

CGR 5 Stars, "Excellent" level from the Thai Institute of Directors (IOD)

WP Energy achieved an "Excellent" (5-star) rating in the Corporate Governance Report of Thai Listed Companies (CGR) for 2025 from the Thai Institute of Directors (IOD), supported by the Stock Exchange of Thailand. This rating affirms our dedication to sustainable business policies, fostering good governance and operational transparency, while considering all stakeholders. It reinforces our commitment to operating under sound corporate governance practices, aligning with the company's "WE PROMISE" sustainability mission, to propel the organization towards robust and sustainable growth.

SET ESG Ratings Level BBB from the Stock Exchange of Thailand

WP Energy received a "BBB" rating in the SET ESG Ratings for sustainable stocks for 2025, within the Resource sector, as announced by the Stock Exchange of Thailand. This marks our first year participating in this evaluation, showcasing WP's potential in sustainable business operations. It serves as a testament to our commitment to aligning with the company's "WE PROMISE" sustainability mission under the comprehensive ESG framework, creating value for stakeholders and demonstrating our long-term growth potential.

ESG DNA Knowledge Set Phase 2 Certificate for Sustainability

WP Energy was awarded the ESG DNA Knowledge Set Phase 2 Certificate for Sustainability, recognizing our initiative in encouraging and supporting employees to undertake ESG training courses and cultivate a sustainability DNA. This equips our workforce with knowledge applicable across all departments and business processes, furthering the organization's sustainable development.
